I express life through the uncertain combination of acrylic colors, curves and lines that somehow combine into something purposeful and orderly. My acrylics express life as a wonderful fractal of God's creation. So often our eyes can't bring life into focus. Until one day we hear the soft words of the Holy Spirit in our ears. Carried by the words of the Spirit the plan for our life materializes before our eyes. What used to look like a mess, is now a wondrous plan.

Life is a Fractal. It all makes sense.
