I rediscovered my love of art at the age of 81. I had neglected art since high school, but after joining Lakeway Painters I became re-inspired.

I use colored pencils on sanded paper for animal paintings. By sharpening each pencil to a fine point, I can achieve the detail I want. My goal is to give each animal a three-dimensional look, and capture its personality.

Dog and cat portraits are my specialty, but I love to paint exotic animals too. I am also trying to branch out to other subjects as I find things that inspire me to paint.
