My Grandmother and mother are artists... I have been creating art since my elementary days. In high school, I sketched portraits. In college, I sold my sketches and paintings and later was commissioned for murals and artwork. Graduated with Studio Art Degree from UT Austin. Showed my art in Art Events and Galleries in Laredo, RGV and Lakeway.

My latest focus in diving into my world of art is my love of rust! When The Pandemic hit, I realized something so tiny can make a huge difference. So I took my camera and found inspiration in my yard. Zoomed into the tiniest part and then painted it on a 3 foot or 4 foot canvas. It quick started my theme and I enjoy the texture challenges. My paintings are my happy place and I love to share with other people. So I welcome you to join me in a class or art show!
